

Sinclair Broadcasting's decision to air a Senator Kerry documentary days before the election is a clear example of the freedom of speech of an independent media consolidation.

Sinclair uses the airwaves and is obligated to serve the public interest. But when large companies control the airwaves like ABC, CBS and NBC and spew there liberal bias we get "the media wing of the Democrat Party" more and more hype and half-truths and less of substance, what we need for our democracy. The more the public is informed the better decisions we the American public make. Moveon.org is not interested in truth, just misinforming the uninformed to a liberal-socilist-communist political agenda. (see: communist goal, 1964)

Please disregard the form letters from Moveon.org, these "folks" are blinded by their own ideaology. It's more important that we see real people from our own communities like the Swiftboat Veterans for the Truth and more substantive news about issues that matter.

Thank you.
